Orange colored booths serve foods and/or drinks. You will need utensils at a booth with a tableware mark. You can bring your own or borrow utensils at our "Eco Station".

The Earth day Kobe sells our own wooden utensils such as chopsticks, spoons and plates. These are mahogany utensils that have been made for supporting the Philippines' typhoons disaster with recovery.

Food pictograms are placed at booths that serve food. "X" mark tells you what ingredient is NOT included.

Allergen information of food is available in our official homepage. For more information, please visit our official website (<http://earthdaykobe.com/>) and choose language from "Select Language".

Green colored booths are product sales shops, and the blue colored booth gives recovery support for the Great East Japan Earthquake.

Transition town booth suggests sustainable ways of living and introduces how to save energy in life.

Ladies' room and men's room are available in the site, with each logo to distinguish.
